For their second collaboration with [Nifty Gateway \(https://niftygateway.com\)](https://niftygateway.com), woman-led collective [HYPERPHANTASIA \(https://hyperphantasia.co\)](https://hyperphantasia.co) has announced *The Dreams Collection*, an NFT film-based series featuring artists such as featuring Ashe, Cynthia Erivo, Dree Hemingway, Frida Cash Flow, Jourdan Dunn, Princess Gollum, Suki Waterhouse, and Zella Day.

The series introduces the very first NFT project for all participants, in line with HYPERPHANTASIA's mission to diversify the NFT space. The auction is set to open on Nifty Gateway on Sunday, December 12th.

Filmed in London, Los Angeles, and New York City, *The Dreams Collection* marks the first NFT for eight women from various artistic avenues, pulling names from music, film, and fashion. The collection will feature two series of 8 individual NFTs, which include both an open edition and a collector's edition, as well as a 1/1 piece, titled "Super 8."

The 'On Dreams' series brings viewers into each subject's bedroom, seeking to encapsulate a dream-like an intimate experience. The series is available as an open edition for both new collectors and fans. In the 'Glass' series, each artist was photographed behind a pane of glass, giving each piece an abstract and ethereal quality. The 'Glass' series will be available as a 5/5 collector's edition. Some of the pieces will include a voiceover that tells a personal story of a memorable dream.
